

# Canopies for Land Rover Defender 130 CC

In the year 2009 we have decided to use our experience which we gained not only by selling hardtops for classic pick-ups, but also by using of them for work purposes and in expeditions around European continent.

We have prepared production of our own line of hardtops with modern GFK construction (multi-layer laminate with individual modern design) Worker and High Worker hardtops are designed especially for working purposes, practical and roomy model Armada gives your Defender even more rough look.

Material, from which are hardtops made, is quality four-layer glass fiber laminate (GFK plastic). Hardtops are fitted with front clear glass window and rear tinted window, stainless hinges of rear tilted, lockable window and also with high quality surface finishing in your car's colour. We can equip the roof of the hardtop with white paint to optically exactly match with the white painted roof of your Defender.
